$$(P) = \frac{1}{10} \cdot 200 = 20$$

It is a well-known fact that Vasya's mother has a very bad memory and forgets things easily. Vasya wants to help his mother by writing down important information about their family members. Vasya has a good memory and remembers all the details about his family members. He has written down the following information:

$$(P) = 20$$
